

Andrews University

Dear Parents and Students,

It is my privilege to invite you to join Hong Kong Adventist College (HKAC) and the new partnership with Andrews University (a highly ranked national university in the USA). Statistics have shown that graduates who are multilingual, and have education and work experiences in multiple countries become eligible for a wider range of jobs, and careers with higher pay. If there is an interest in international education and all the benefits that can be enjoyed, please consider this wonderful opportunity.

HKAC has partnered with Andrews University, to make the cost of an international education financially attractive. Students may study at HKAC (minimum of one year required) and pay the local cost of tuition. Then, due to this partnership, students will enjoy an international education at Andrews University at approximately 50% of the regular Andrews University tuition rate (does not apply to room and board or other fees). There are three options available to students:

Option 1

You know which program you wish to study at Andrews University, you can easily score 550 on the TOEFL exam, and you have the finances arranged to study abroad. CONGRATULATIONS! All your courses will be concurrently registered at HKAC and Andrews University. After a minimum of one year of study at HKAC, you may simply change campuses and continue your study in the USA at Andrews University!

Option 2

You know which program you wish to study at Andrews University, but you need more time at HKAC to improve your English or make better financial arrangements before moving to the USA. Do not worry! Enroll at HKAC! All your courses will be concurrently building credits on the Andrews University campus and will be available for your bachelor's degree for up to ten years. When your English and finances are ready, simply move to the Andrews University campus and continue your studies!

Option 3

You are intrigued with an international academic experience, but you need more time to decide which major you want to study. No problem! Do not give up! Study at HKAC for as long as you need. Meanwhile, you will be building credits which will ALL be transferable to Andrews University. These credits will not lose their value for ten years and will count as credits towards your general education requirements, or credits towards your newly chosen major (remember that Andrews University has over 130 undergraduate bachelor's degrees to choose from), or credits which are counted as elective credits!

Andrews University

Start planning now to become a student on each of these two campuses where the student to teacher ratio is exceptionally low, allowing students to obtain an excellent understanding of the course materials. Plan to study hard and soon you may have the privilege receiving an Andrews University Degree, and joining the ranks of the more than 88,000 graduates who have come from over 100 countries to gain this valuable education.

Wishing you academic successes,

Dr. Verlyn R Benson, DIT
Executive Director, International Center
Andrews University
